12.3 The individual regattas

12.3.a For all classes, 2 races (completed by all groups) are required to constitute a series. When only one race is sailed, the regatta will be counted for the Europa Cup Trophy, but the score point generating from the final result will be calculated with a *one step downgraded* Grade factor (F).

12.4 The Europa Cup Trophy

12.4.a The single event score will be collected and scored in the **EurILCA ranking** list, therefore the final position in the results list will be a part of a formula constituting the final score. Ranking Points (P) are calculated using the following method.

$$P = R \times Q \times QT \times YWF \times F$$

Where

P = Ranking Points

R = Regatta Points (101- final position)

Q = Quality Factor (max value 1.5)

QT = Quantity Factor (max value 1.5)

YWF = Year Weighting Factor (max value 1.5)

F = Event Grading Multiplier (3 or 3.3) – see item 1.1 EurILCA Grade

Every calculated point (P) will be rounded up 1/1000.

12.4.b The Europa Cup Trophy will include all the events of Europa Cup, the European championships, each District championship and the major regattas of each district.

12.4.c The overall score will add the seven highest values of P over the last two years to determine the competitor's total ranking score. No more than the 4 best values of P over the last two years, related to the Europa Cup Races, will be counted.

12.4.d The sum of the overall scores (as per item 12.4 c) of the best 3 scored sailors of each Sailing Club will constitute the sailing club score. It will be made counting the best 3 independently from the fleet and per each single fleet (Standard, Radial F, Radial M, Laser 4.7 M and Laser 4.7 F)
